Recommendations

- **Increase Presence in Delhi and Other Key Cities:** Since Delhi is the top revenue city, more efforts should be made to grow in this market and also expand in cities like Mumbai and Hyderabad.
- **Enhance Digital Presence:** Improving the app and website can provide a great opportunity to increase sales along with offline methods.

Recommendations

- **Focus on Young Adult Customers:** Since adults aged 18-35 generate the less revenue, marketing should aim to attract and keep these customers.
- **Promote Popular Policies:** Focus on marketing successful policies like "POL4321HEL" to attract more customers.

Recommendations

- **Understand Monthly Changes:** Look into the reasons for the significant drop in April 2023 to avoid similar issues in the future and maintain steady growth.

Thank You!
